

ACCESSIBILITY

»Gardens of the centuries«

Parking

Please make sure to let off physically challenged guests directly in front of the orangery. We would kindly ask you to do so, because the garden path leading from our parking areas to the Conventgarden is NOT suitable for wheelchair users or users of walking aids. We regret that we are not able to offer you no other solution but due to the lay of the land, the garden path is quite steep. Please park your car in one of our parking areas. A limited number of parking spaces for physically challenged guests are provided directly in front of the orangery. Above all these are relevant to physically challenged guests visiting the exhibition on their own.

Visiting the exhibition

The garden exhibition in the Conventgarden, however, can be visited with a wheelchair and with walking aids. In the Conventgarden a disabled toilet is provided. The Wassertorhof and the Pfistererstiegenhof are next to the Conventgarden and can also be visited.

Please note that the Leopoldihof and the Feuerbrunnenhof are located at the level of the Stiftsplatzes. Therefore these may not be easily accessible for physically challenged guests coming for the Conventgarden (35 meters of difference in level, steep garden path or stairs with more than 70 steps). These courtyards can be visited more easily if you drive to one of our parking areas and walk from there.

For further information about the other areas of the monastery you may wish to visit, please contact T +43 2243 411-212 , groups@stift-klosterneuburg.at
